- Master's Degree in Formal Methods in Computer Science (2019 - 2020)

UAM Language Service (2018)

"Time is the currency we should invest to become better engineers"

v a r R e s u m e =

My name is Juan Diego Sierra Fernández, and I am 27. Graduated in **Telecommunications Engineering** with a grade of 9.4 in the final project and winner of the *UAM Entrepreneurs Program* in my university on 2019.

Passionate of developing and researching about modern software methods and technologies. I usually work with **Blockchain, IoT, Cybersecurity & Cloud** technologies.

But there are other important things in my life besides technology such as stock investing, giving technology talks, traveling, snowboarding, producing electronic music or watching sci-fi movies. It would great to have my office close to my house because I'll be able to use my electric bike on a daily basis.

v a r E x p e r i e n c e =

- > **Blockchain Engineer** in Sopra Steria (July 2019 - Currently):
 - * Working for Airbus Defence & Space.
